This guide is outlined by the phases that NYC continues to evolve through as per the Governors Reopening Plan. It begins with when NYC residents were ordered to Shelter In Place, followed by the Four Phases of Re-Opening guided by the NY City and State Officials.

The protocols were evolving constantly by AFC Housing Directors and Executive Directors. For the most part each program followed the same guidelines, except for a few differences that are mentioned below when necessary.

**Shelter In Place**

**Residents are required to stay inside during the day:** Social distancing is important for the health and safety of all our residents and staff. This policy is in effect agency wide and is taking into account the needs, concerns, and safety of all who come to work to support our residents every single day and every young person who relies on our services and housing. In addition to issuing write-ups for leaving the site, staff should send an email to housing supervisors updating them that a resident has chosen to leave and what their reasoning is so supervisors can follow up. Our goal as an agency and program is to figure out how we can support our residents and keep them inside safe, while still having their needs met.

**Residents are allowed outside for fresh air, errands and exercise for 30 min at a time.** Our three housing programs (Emergency, Transitional and Transgender Housing) had some differentiation over this phase.

- **Emergency Housing:** 30 min breaks, 3 times a day scheduled for them (morning, afternoon and evening)
- **Transitional Housing:** 30 min breaks, 3 times a day at residents convenience
- **Transgender Housing:** 30 min at a time but no limitation on how many
Any resident who leaves the site for any other reasons such as visiting family for the day or working while not being an essential worker as stated by the Mayor's executive order should be issued a **write-up**.

Write- ups can be reviewed if necessary on a case by case basis by supervisors. Residents will also be informed that they can face **discharge** even during the city wide shutdown for continuing to leave the site for other reasons and to socialize. Supervisors will work with our City Agency (Department of Youth and Community Development) to identify alternative beds and placements for residents who are continuing to break this policy.

**Resident Exceptions:**
1) They are an **essential worker** and have provided their case manager and/or supervisors with their work schedule verifying this.

2) They were given a **curfew extension pass** by supervisors where they feel safe and can stay for an extended period of time to social distance and their bed will be held. This can **ONLY** be approved by supervisors not housing staff.

3) To go to the **grocery store** for essentials, take **short walks** around the block, and **smoke breaks**. Staff should encourage residents to stay at least 6 feet apart from others while taking walks, condensing trips so instead of daily store runs bi-weekly and weekly runs etc, but as of now getting fresh air and going for a walk is approved and encouraged while also discussing proper hygiene with residents frequently when doing so. Smoke breaks that are taking excessive amounts of time should be brought to the attention of supervisors by email for review. (Example: smoke breaks are taking 2 hours so residents may be travelling without communicating)

**Mental Health Therapy, Case Management and Groups** are provided remotely on Zoom and staff were all provided each resident's assigned therapist, case manager and groups available to assist and encourage engagement.

**Staff Support:**
Housing Staff will be receiving time and a half for any shift that you work in housing and reimbursed for travel in cabs, Lyft, Uber etc with receipt

*This was made possible by extra funding from the City*
Resident Incentives:
$25 Gift cards were given to residents in order to provide some financial support to residents during this time and to incentivize residents staying inside and maintaining the cleanliness of the space. As well as to show our support and appreciation for the residents and how difficult this time has been for them. We only distribute gift cards for residents if they:

- Abide by COVID shelter in place policy - do not leave the site more than 30 minutes (UNLESS for an essential errand such as a bank, grocery, or pharmacy run that can be demonstrated through a receipt for that exact reason)
- Maintain a clean room each shift
- Complete their chore each night
- Complete their weekly deep cleans
- Attend one virtual group/housing staff activity throughout the week

Extra Staff Trainings Provided:
Trainings conducted by The Center for Anti Violence Education
Topics include: “Staying Safer: Decreasing Tension in our Homes during COVID-19” and “Mental Health First Aid”

As the Covid guidelines began to ease in NYC in preparation for Phase 1 of city wide re-opening policies began to shift:

- Residents outside breaks increased from 30 mins to 1 hr, 3x a day. Residents could go out up to three times a day and the 1 hour cannot be broken down into 30 minutes or less. Residents are able to combine two of their breaks for a maximum of 2 hours. All requests should be sent to supervisors for approval. After 6pm, no one can make a request to combine their time.
- Residents must wear a mask when leaving the site. Masks are reusable, residents should not discard and wash their masks after use. Masks can be washed with a little dish liquid/laundry detergent and will dry in a few hours. Residents are responsible for their own masks.
- When residents return to site they should continue to wash hands and sanitize their belongings.
- A longer break was a possibility for errands (case by case approved by supervisor) resident brings receipt back for documentation.
- Housing staff can plan to escort all residents from the house floor outside for activity or walk once a day.
- Also, any request to combine time for exercise will be denied.
- Supervisors will continue to approve medical appointments separately from your daily breaks.
- Send your requests at least 4 hours in advance to provide time for approval.
The rules that were put in place to practice social distancing on site are still in effect (less people in common areas; limited social interactions as much as possible; access to the kitchen is restricted).

**Cleaning Protocol:**
- Staff and Clients should continue to wash your hands when entering the site and frequently while you are on site.
- After long exposure outside, residents should change into other clothes before lounging on site. Therefore, residents should do their laundry on a weekly basis.
- Hand Sanitizers are mounted on the wall at each site
- Staff will continue to sanitize all common areas every two hours
- The kitchen cut off time at 10pm is still in effect, as well as deep cleaning twice a week.

**Daily Temperature Checks:** Any resident who shows symptoms will be transferred to the “COVID-Hotel”
*This was a hotel funded by the city and operated in collaboration with Callen-Lorde Community Health Center for residents who show symptoms or test positive to quarantine with proper care.

**Phase 1 and Phase 2**

These phases followed the same protocol as above with a few adjustments outlined below:

**Residents are now permitted to leave the site without restriction from 10am-8pm.** Curfew will be at 8pm for all residents and both extensions and overnights are still not allowed at this time. At this time NYC had a 8 pm curfew for all non-essential workers therefore curfew was at 8 pm.

These changes are taking into account updated health guidelines around time spent outdoors being lower risk than time spent indoors with 10 people or more. This change is also in order to account for residents increasingly having scheduled appointments, for those who wish to exercise outdoors, attend protests, and complete other errands and forms of self care. We did not allow overnights at this time as going to/staying over at other people’s homes at this time greatly increases the risk of transmitting COVID-19 given the higher exposure to people and surfaces. Residents were encouraged to be mindful of the activities they were engaging in outside and considerate about the impact of potential exposure on the other residents and staff of the site.

Whenever leaving the site (even for a short errand), residents must wear a mask. As COVID-19 is still a serious risk to all, but especially immunocompromised residents and staff, we want to emphasize the importance of not only wearing a mask but also social distancing and limiting the amount of contact that residents have with people and surfaces.
When residents returned to the site, they were to put their mask in a plastic baggie (if you plan to use it again that day) or wash it. Also make sure to wash their their hands for 20 seconds as soon as they return to the site. Residents must also be mindful of the clothes they are wearing and make a distinction between your outside clothes and your indoor clothes to further lower the risk of transmitting COVID-19.

When the 8 pm city wide curfew was lifted in Phase 2: The curfew changed to 10 pm from Sunday to Thursday and 12am on Friday and Saturday just before phase 3 started

Phase 3

Mask and Cleaning guidelines continue (same as Shelter in Place, Phase 1 and 2)

New Intakes Begin
All new intakes will arrive between 10am and 4pm.
All new intakes will have their temperature taken upon arrival.
All new intakes will be screened for recent Covid exposure and fever.
New intakes arriving after 4pm will be referred to another agency for shelter.

All new residents will be screened using the following screening tool:

1. Do you have any symptoms of a respiratory infection (e.g. cough, sore throat, fever, or shortness of breath, difficulty breathing) or any other related symptoms (extreme fatigue, muscle/body aches, headache, loss of taste/smell, congestion/runny nose, nausea/vomiting, diarrhea)?

2. Have you had contact with anyone with known COVID-19?

3. Perform a temperature check (anything at 99.5 or higher is considered a fever for COVID)

If new intakes answer “Yes” to Questions 1 or 2 OR have a fever, the new intake will be provided with a mask and a supervisor will be notified. The new intake will be connected to the COVID-19 Isolation Hotels for symptomatic youth immediately.
Day Programming
Virtual Zoom Groups for all residents continued
Daily Onsite Groups are facilitated and attendance is mandatory for all Emergency Housing Residents
Emergency Housing Residents may miss Day Groups if the following conditions are met:
   a. a submitted work schedule conflicts with the group time
   b. a submitted school schedule conflicts with the group time
   c. a submitted appointment card from a medical provider conflicts with the group time
   d. a submitted appointment card from a service provider conflicts with the group time

Curfew
Residents may exit the site as early as 6am

Sunday to Thursday Curfew is 10pm
Sunday to Thursday Lights Out 12am

Friday and Saturday Curfew is 12am
Friday and Saturday Lights Out 2am

Overnights
Transitional and Transgender Housing reinstate overnight passes

No Shows
There are no automatic weekly Overnight Passes given in Emergency Housing.
Residents may choose to not return to the site for one or two days. This is considered a NO SHOW.

Residents may earn extended curfews by earning points in the following categories:
Completing Assigned Chore (2)
Attending Groups (4)
Attending Case Management (4)
Completing Extra Assigned Chores (2)
Attending Community Meeting (4)

Residents may redeem points to extend their curfew:
Curfew extension to midnight = 6 points
Curfew extension to 2am = 12 points
No Show/Overnight = 14 points
**Work and School Attendance**
Resident are allowed to work or attend school during Phase 3.
Residents must submit a work or school schedule to the Housing Staff or assigned Case Manager.
Residents must adhere to wearing masks upon entry and exit.
Residents must wash their hands upon entry.

**Phase 4**
TBD as NYC just entered Phase 4 this week but no changes have been made at this time from Phase 3. We will update as needed.
